Ghislain THEUBO

Paris, France | +33 6 82 86 62 79 | bergerghislaintheubo@gmail.com
LinkedIn | Bilingual English/French | GitHub

Professional Summary

Software Engineer with strong **Python** backend practice and full-stack appetite (**React/TypeScript**, PostgreSQL). Delivered production services for research/public-impact contexts and modernized a collaborative module at Dassault Systèmes. Motivated by GovTech: help collectives modernize decision, budget, and RH data tools at **Manty**, with reviews, tests, CI/CD, and thoughtful AI adoption.

Core Strengths

Python (Flask / FastAPI) · **React / TypeScript** · PostgreSQL · Docker & CI/CD · Code reviews & tests · Data visualization · Public-sector impact · Continuous learning

Experience

Shift Technology – Platform Software Engineering — Paris, France
Software Engineer (CDI – Platform / Backend) — *Sept 2026 – Nov 2026*

- Joined the **platform / foundations** engineering context: C# / .NET services on **Microsoft Azure**, contributing to shared building blocks used by product squads (APIs, config/transversal services).
- Worked with **high-performance API** patterns, cloud data stores (**Azure Cosmos DB** notions), messaging (**Service Bus** notions), and infrastructure-as-code awareness (**Terraform** notions) in a hybrid SaaS environment.
- Practiced ownership habits: design discussions, code reviews, monitoring mindset, and shipping incremental improvements on shared platform components.

Gustave Roussy & CentraleSupélec MICS Lab — Paris / Saclay, France
Software Engineer (CDD – Backend / Data Platforms) — *Jan 2026 – Sept 2026*

- Software Engineer (CDD) in joint coordination between **Gustave Roussy (Oncostat / CESP)** and **CentraleSupélec MICS**: built and maintained production backends for research/clinical data workflows.
- Designed **REST APIs** (Python/FastAPI) with validation, RBAC, structured logging, and observability; PostgreSQL modeling with indexing and query tuning (**∼30%** faster critical reads).
- Containerized services with **Docker**; automated tests and delivery via **GitHub Actions**; wrote technical documentation for data flows and operational handoff.
- Collaborated daily with domain experts (research/medical) — translating ambiguous needs into reliable, auditable software.

Dassault Systèmes – 3DEXPERIENCE / 3DSwym R&D — Vélizy-Villacoublay, France
Software Engineer Intern (Full-Stack Module Rewrite) — *Mar 2025 – Sept 2025*

- Delivered a user-centric Survey module rewrite on 3DSwym: backend Java/Spring + front integration concerns, Agile prioritization, and production-minded quality gates.
- Strong OOP, API/data-model design, TDD, and measurable outcomes (+35% perf, 85% coverage).

INRIA Grenoble – Humanlab / Froll'N'Roll — Montbonnot-Saint-Martin, France
Research Intern – Real-Time Control Modules (Assistive Wheelchair) — *May 2024 – Aug 2024*

- Developed real-time control modules in **C/FreeRTOS** and Python for an electrically assisted manual wheelchair — direct user impact with continuous validation with the end user.
- Redesigned communication/data pipelines under latency constraints; improved responsiveness by **∼40%**; contributed to open/documented research codebases.
- Human-centered engineering: DIY hardware/software integration, iterative prototyping, and clear technical communication in a multidisciplinary SED team.

LIG – Laboratoire d'Informatique de Grenoble — Grenoble, France
Cloud Infrastructure Intern (VM Migration on OpenStack / Grid'5000) — *Feb 2025 – Mar 2025*

- Automated and studied **VM live/migration** experiments on OpenStack within Grid'5000; analyzed performance vs availability trade-offs for hosted applications.
- Wrote reproducible scripts and measurement notes under supervision of Alain Tchana — deepened virtualization and distributed cloud skills.

Selected Projects

City Decision Dashboards | Python Flask, React/TS, PostgreSQL, Vite — GitHub

- Collectivité-style KPI dashboards with filters/drill-downs; Flask API + React; Docker; tests + CI; clarity for non-technical city staff.

Budget Workflow Helper | Python, React, PostgreSQL — GitHub

- Budget preparation flow with role-based edits and audit trail; explores DX and AI-assisted docs without losing code ownership.

Technical Skills

Backend: Python (Flask/FastAPI), PostgreSQL, SQL tuning
Frontend: React, TypeScript, Vite
Ops: Docker, CI/CD, Linux servers/VMs
Practices: reviews, tests, pair-friendly workflow, GovTech product sense

Education & Certifications

Grenoble INP - Ensimag Grenoble, France
Engineering Degree – Information Systems / Software Engineering (Double Degree) *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé Yaoundé, Cameroon
Master's Degree in Computer Engineering – Top 12% of class *2019 – 2023*

Certifications: Programming Foundations – TDD (LinkedIn, 2025) · Primerli – Insurance Industry Foundations (2025)

Languages & Extra

English: bilingual / professional · **French:** fluent · **Spanish:** intermediate
Extra: academic tutoring (UGA DAEU maths; 4 years mentoring baccalaureate students in Cameroon) · tennis, football
