Ghislain THEUBO

Paris / Corbeil-Essonnes area | +33 6 82 86 62 79 | bergerghislaintheubo@gmail.com
LinkedIn | Bilingual English/French | GitHub

Professional Summary

Software Engineer (Ensimag) with hands-on delivery on the **Dassault Systèmes 3DEXPERIENCE** ecosystem: full rewrite of the **3DSwym Survey** module (Java/Spring, specs, TDD, ∼**85%** coverage). Strong in web stacks (**TypeScript/JavaScript**, REST/JSON, HTML/CSS), CI/CD, and translating functional needs into detailed technical designs with architects and product partners. Seeking **Ingénieur Développement Logiciel 3DExperience** at Safran Aircraft Engines (Continuité Numérique, Corbeil-Essonnes) to build widgets, customizations, POCs, and automations on 3DEX (on-prem & cloud) for the PLM/MES continuity program.

Core Strengths

3DEXPERIENCE / 3DSwym delivery (Dassault) · Java / Spring · TypeScript / JS web · REST / JSON · Specs & User Stories · TDD / CI/CD · PLM awareness · Multi-stakeholder DSI collaboration · English

Experience

Dassault Systèmes – 3DEXPERIENCE / 3DSwym R&D — Vélizy-Villacoublay, France
Software Engineer Intern (Full-Stack Module Rewrite) — *Mar 2025 – Sept 2025*

- **Primary signal for this role:** owned the overhaul of the legacy **Survey module** inside **3DSwym** on the **3DEXPERIENCE** collaborative platform — analyze, design, develop, deliver.
- Backend **Java 17+ / Spring Boot** (MVC, Spring Data JPA) + Hibernate; applied **TDD** (JUnit); design patterns for modular, maintainable customizations.
- Translated Champion/PM needs into MoSCoW-prioritized increments, acceptance-minded delivery, and documented design — same loop as Safran architects / tech leads.
- Results: core features shipped with ∼**35%** performance improvement and ∼**85%** test coverage; Git + CI/CD industrial practices.
- Gained platform context: 3DEX collaborative apps, API-oriented delivery, quality/security expectations of a large PLM vendor ecosystem.

Shift Technology – Platform Software Engineering — Paris, France
Software Engineer (CDI – Platform / Backend) — *Sept 2026 – Nov 2026*

- Contributed to the **platform / foundations** squad building shared services used by product teams: design and implementation of **C# / .NET** components and **high-performance APIs** on **Microsoft Azure**.
- Worked with cloud data and messaging building blocks (**Azure Cosmos DB**, **Service Bus**), configuration/transversal services, and infrastructure-as-code awareness (**Terraform**) in a hybrid SaaS environment.
- Practiced production engineering habits: design discussions, code reviews, monitoring mindset, incremental delivery, and collaboration with platform and product engineers.

Gustave Roussy & CentraleSupélec MICS Lab — Paris / Saclay, France
Software Engineer (CDD – Backend / APIs) — *Jan 2026 – Sept 2026*

- Python/FastAPI REST APIs, RBAC, logging, PostgreSQL; Docker + GitHub Actions; specs and docs for multi-actor handoff.
- Incident-minded delivery and continuous improvement of robustness — transferable to 3DEX widget/customization support.

INRIA Grenoble – Humanlab / Froll'N'Roll — Montbonnot-Saint-Martin, France
Research Intern – Real-Time Control — *May 2024 – Aug 2024*

- C/FreeRTOS + Python; rigorous validation and documentation in a multidisciplinary team.

LIG – Laboratoire d'Informatique de Grenoble — Grenoble, France
Cloud Infrastructure Intern — *Feb 2025 – Mar 2025*

- Automation and measurement on OpenStack/Grid'5000 — DevOps curiosity for CI/deploy chains.

Selected Projects

3DEX-style Widget / Extension Lab | TypeScript, REST/JSON, HTML/CSS — GitHub

- SPA widget consuming REST/JSON mock PLM services; auth-aware calls; unit tests; CI pipeline — ramp for 3DEX widget stack.
- Documented mapping of functional stories → acceptance criteria → detailed design.

3DSwym Survey Module (Dassault) | Java/Spring, 3DEXPERIENCE — Dassault

- Production-grade customization/module delivery on 3DEX ecosystem with TDD and performance focus.

PLM Continuity Automation Sketch | Python/TS, webhooks, CI — GitHub

- POC automating status sync between mock design and manufacturing boards — continuity-program mindset.

Technical Skills

3DEX signal: 3DSwym / 3DEXPERIENCE module delivery at Dassault; eager ramp on widgets, APIs, JPO/JSP/TCL-MQL customs
Web: TypeScript/JavaScript, HTML/CSS, REST, JSON, front frameworks
Backend: Java/Spring Boot, Python/FastAPI, C#/.NET exposure
DevOps: Git, CI/CD, Docker, artifact/build discipline
Soft: multi-actor DSI collaboration, documentation, POCs, continuous improvement

Education & Certifications

Grenoble INP - Ensimag Grenoble, France
Engineering Degree – Information Systems / Software Engineering (Double Degree) *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé Yaoundé, Cameroon
Master's Degree in Computer Engineering – Top 12% of class *2019 – 2023*

Certifications: Programming Foundations – TDD (LinkedIn, 2025) · Primerli – Insurance Industry Foundations (2025)

Languages & Extra

English: bilingual / professional · **French:** fluent · **Spanish:** intermediate
Extra: tutoring · tennis, football · motivated to deepen 3DEX customizations for Safran digital continuity
