Ghislain THEUBO

Paris, France | +33 6 82 86 62 79 | bergerghislaintheubo@gmail.com
LinkedIn | Bilingual English/French | GitHub

Professional Summary

Software Engineer (Ensimag M.S.-level) strong in **C++** and **Python**, with production backends (Gustave Roussy), industrial R&D delivery (Dassault Systèmes), platform APIs (Shift), and real-time systems at **INRIA** (C/FreeRTOS). Solid fundamentals: concurrency, testing, CI/CD, observability, debugging from logs/telemetry. Seeking **Software Engineer – Mission Execution** at Harmattan AI (Paris) to build reliable mission orchestration services and real-time execution paths from planner to field.

Core Strengths

C++ & Python · Backend services & APIs · Concurrency / real-time notions · CI/CD & testing · Telemetry & failure analysis · Cross-team with algorithms/product · Ownership & quality bar · English

Experience

Shift Technology – Platform Software Engineering — Paris, France
Software Engineer (CDI – Platform / Backend) — *Sept 2026 – Nov 2026*

- Contributed to the **platform** / **foundations** squad building shared services used by product teams: design and implementation of **C#** / **.NET** components and **high-performance APIs** on **Microsoft Azure**.
- Worked with cloud data and messaging building blocks (**Azure Cosmos DB**, **Service Bus**), configuration/transversal services, and infrastructure-as-code awareness (**Terraform**) in a hybrid SaaS environment.
- Practiced production engineering habits: design discussions, code reviews, monitoring mindset, incremental delivery, and collaboration with platform and product engineers.

Gustave Roussy & CentraleSupélec MICS Lab — Paris / Saclay, France
Software Engineer (CDD – Backend / Data Platforms) — *Jan 2026 – Sept 2026*

- Designed and shipped **Python**/**FastAPI** services with validation, RBAC, structured logging, and observability; PostgreSQL modeling and query tuning (∼**30%** faster critical reads).
- Dockerized services; GitHub Actions CI; documented data flows for reliable handoff — production discipline for mission-critical software.
- Partnered with domain experts to integrate research workflows into testable, deployable software.

Dassault Systèmes – 3DEXPERIENCE / 3DSwym R&D — Vélizy-Villacoublay, France
Software Engineer Intern (Full-Stack Module Rewrite) — *Mar 2025 – Sept 2025*

- Owned a large module rewrite (Java 17 / Spring Boot / Hibernate) with TDD; ∼**85%** coverage, ∼**35%** performance gain.
- Defended quality via reviews, incremental delivery, and product-aligned prioritization (MoSCoW).

INRIA Grenoble – Humanlab / Froll'N'Roll — Montbonnot-Saint-Martin, France
Research Intern – Real-Time Control Modules — *May 2024 – Aug 2024*

- **C**/**FreeRTOS** + Python real-time control; pipeline redesign for ∼**40%** responsiveness; telemetry/logs used to find failure modes.
- Embedded + algorithmic collaboration under resource constraints — transferable to mission execution on robots.

LIG – Laboratoire d'Informatique de Grenoble — Grenoble, France
Cloud Infrastructure Intern (OpenStack / Grid'5000) — *Feb 2025 – Mar 2025*

- Experiment automation and performance vs availability analysis — systems thinking for distributed execution.

Selected Projects

Mission Orchestrator MVP | C++, Python, REST, state machines — GitHub

- Planner → executor service: mission plan JSON, agent heartbeats, command dispatch, fail/retry policies.
- CI with unit + integration tests; structured logs for post-run failure analysis.

Deterministic Replay Harness | C++, Catch2 — GitHub

- Record/replay of event streams for debugging flaky real-time paths — quality instinct for field operations.

INRIA Control + Telemetry | C, FreeRTOS, Python — INRIA

- Latency-constrained control with measurable gains; validation under live operator conditions.

Technical Skills

Languages: C++, Python (strong); Java/Spring; C#/.NET exposure
Systems: concurrency, real-time notions, APIs, messaging (Service Bus exposure)
Quality: TDD, CI/CD, code review, observability, log/telemetry analysis
Nice-to-have signal: robotics/embedded internship (INRIA FreeRTOS)

Education & Certifications

Grenoble INP - Ensimag — Grenoble, France
Engineering Degree – Information Systems / Software Engineering (Double Degree) — *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé — Yaoundé, Cameroon
Master's Degree in Computer Engineering – Top 12% of class — *2019 – 2023*

Certifications: Programming Foundations – TDD (LinkedIn, 2025) · Primerli – Insurance Industry Foundations (2025)

Languages & Extra

English: bilingual / professional · **French:** fluent · **Spanish:** intermediate
Extra: tutoring · tennis, football
