LinkedIn | Bilingual English/French | GitHub

Professional Summary

Junior Full-Stack Java Engineer (Bac+5 Ensimag, <2 years experience) with solid **OOP/Java** foundations and first practice of modern front frameworks. Experience delivering tested, documented software at **Dassault Systèmes** and production APIs at Gustave Roussy. Curious about **GovTech**, security, and AI-assisted development. Eager to join **ATEXO** R&D (SUB / MMP) to ship end-to-end features on **Java/Spring Boot** + **Vue/Angular**, with mentorship and strong engineering practices.

Core Strengths

Java OOP · Spring Boot (notions/practice) · Vue.js / Angular · MySQL / SQL · Docker & CI · Unit testing · Clean code · AI-assisted coding (critical use) · Teamwork

Experience

Dassault Systèmes – 3DEXPERIENCE R&D — Vélizy-Villacoublay, France
Software Engineer — *Apr 2025 – Oct 2025*
- Contributed to critical platform software with design docs, reviews, and automated tests (85% coverage).
- Performance work (+35%) and SQL/data-path analysis — mindset aligned with ATEXO's load/integrity challenges.

Gustave Roussy & CentraleSupélec MICS — Paris, France
Backend Engineer (CDD) — *Jan 2026 – Present*
- End-to-end ownership of API features: validation, access control, monitoring, Docker, GitHub Actions CI.
- Sensitive data workflows — transferable to public-sector trust and traceability requirements.

INRIA Grenoble — Montbonnot-Saint-Martin, France
Research Intern — *May 2024 – Aug 2024*
- Delivered reliable modules under constraints; practiced documentation and collaborative validation.

Personal Projects – Java Full Stack & Public Process

Grant Request Tracker (SUB-inspired MVP) | Java 21, Spring Boot, Vue.js, MySQL — GitHub
- Workflow app: submit → instruct → decide → pay a grant request; Liquibase-style migrations; JUnit tests.
- Vue.js UI for case officers; demonstrates end-to-end feature ownership for public processes.

Secure Document Drop Zone | Java, Spring Security, Angular — GitHub
- Prototype of deadline-aware upload with integrity checks and audit logs — inspired by MMP offer deposit constraints.
- Docker Compose + GitHub Actions; Sonar-minded clean code and test coverage focus.

Technical Skills

Backend: Java, Spring Boot, Hibernate notions, Maven, SQL/MySQL
Frontend: Vue.js, Angular, TypeScript
Quality/Run: JUnit, Docker, GitLab CI / GitHub Actions
Interest: GovTech, accessibility (RGAA notions), AI-assisted development with human review

Education

Grenoble INP - Ensimag — Grenoble, France
Engineering Degree in Computer Science & Software Engineering — *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé — Yaoundé, Cameroon
Master's Degree in Computer Engineering (Top 12%) — *2019 – 2023*

Languages

English: Bilingual (professional working proficiency)
French: Fluent
Spanish: Intermediate
