Professional Summary

Full-Stack JavaScript-oriented engineer (Bac+5 Ensimag) with production API experience and product/integration mindset. Comfortable reading and evolving JS/TS codebases, building workflows/UI, and translating client needs into robust configurations. Excited by **Basikon**'s API-first SaaS financing platform and low-code delivery model — ready to configure client projects and contribute to the platform codebase with autonomy and structured thinking. **Fluent English**.

Core Strengths

JavaScript / TypeScript · Full-stack web · REST APIs · Workflow / UI configuration · Integration mindset · CI & automation · Analytical & autonomous · English (fluent)

Experience

Gustave Roussy & CentraleSupélec MICS — Paris, France
Backend Engineer (CDD – APIs & Integrations) — *Jan 2026 – Present*
- Translated product/business rules into API behaviors (validation, RBAC, data flows); optimized SQL (+30%).
- Owned delivery with Docker/CI; documented integrations for reuse — close to Basikon configurator posture.

Dassault Systèmes – 3DEXPERIENCE R&D — Vélizy-Villacoublay, France
Software Engineer — *Apr 2025 – Oct 2025*
- Shipped platform features with specs, tests, and performance focus (+35%); collaborated with product stakeholders.

INRIA Grenoble — Montbonnot-Saint-Martin, France
Research Intern — *May 2024 – Aug 2024*
- Built and adapted systems under real constraints; strong solution orientation and clear communication.

Personal Projects – JS Platform & Financing Flows

Loan Decision Workflow Studio | Node.js, TypeScript, React, PostgreSQL — GitHub
- Configurable workflow engine (eligibility rules, scoring steps, UI forms) for a simplified lending journey — Basikon-like financing use case.
- API-first design; low-code style rule editor + ability to drop into source for custom JS extensions.

Partner Integration Sandbox | JavaScript, REST, webhooks, CI — GitHub
- Mock partner/bank integration with webhooks, retries, and automated tests — demonstrates integration best practices.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL
Stack: Node, React, REST APIs, PostgreSQL, Docker, CI
Mindset: client needs → robust config/code; autonomy; English oral & written
Bonus interest: finance / credit workflows

Education

Grenoble INP - Ensimag — Grenoble, France
Engineering Degree in Computer Science & Software Engineering — *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé — Yaoundé, Cameroon
Master's Degree in Computer Engineering (Top 12%) — *2019 – 2023*

Languages

English: Bilingual (professional working proficiency)
French: Fluent
Spanish: Intermediate
