Professional Summary

Full-Stack Software Engineer from a top engineering school (**Ensimag**), with production experience on APIs and platforms at **Dassault Systèmes** and Gustave Roussy. Strong analytical mindset, detail-oriented delivery, and hands-on work with **React**, **Node/NestJS-style APIs**, and **LLM applications**. Excited by **Jimini AI**'s mission to transform legal research, analysis, and drafting with generative AI — ready to ship robust, scalable product features end-to-end.

Core Strengths

React / TypeScript · NestJS / Node APIs · Python (AI & backends) · REST · UI/UX collaboration · LLM / RAG notions · Architecture & scalability · Communication · Fast learning

Experience

Dassault Systèmes – 3DEXPERIENCE R&D Vélizy-Villacoublay, France
Software Engineer (Platform Architecture) *Apr 2025 – Oct 2025*

- Shipped platform features in a demanding R&D environment; wrote technical design notes and automated tests (85% coverage).
- Improved critical paths by **35%**; collaborated cross-team with product and senior engineers — precision and ownership mindset.

Gustave Roussy Cancer Institute & CentraleSupélec MICS Lab Paris, France
Backend Engineer (CDD) *Jan 2026 – Present*

- Built FastAPI/PostgreSQL services with RBAC and monitoring; optimized SQL (**30%**); Docker + GitHub Actions.
- Worked on sensitive data workflows — useful for high-trust domains like legal AI.

INRIA Grenoble – Humanlab Montbonnot-Saint-Martin, France
Research Intern *May 2024 – Aug 2024*

- Solved complex real-time data problems (+40% responsiveness); documented solutions clearly for multidisciplinary stakeholders.

Personal Projects – Legal AI Full Stack

Legal Draft Assistant (MVP) | React, NestJS, TypeScript, PostgreSQL GitHub

- Full-stack app: React UI for document Q&A / drafting assistance + NestJS API for auth, document store, and LLM tool calls.
- Focused on UX clarity for non-technical legal users; structured citations and editable outputs.

Case Corpus RAG Pipeline | Python, LangChain, NestJS gateway GitHub

- RAG over a mock case/document corpus with retrieval evaluation; NestJS gateway exposes REST endpoints to the React client.

Technical Skills

Frontend: React, TypeScript, modern UI patterns
Backend: NestJS/Node, Python/FastAPI, PostgreSQL, REST
AI: LangChain/RAG notions, prompt/tool design
Quality: tests, CI, code reviews, technical writing

Education

Grenoble INP - Ensimag Grenoble, France
Engineering Degree in Computer Science & Software Engineering *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé Yaoundé, Cameroon
Master's Degree in Computer Engineering (Top 12%) *2019 – 2023*

Languages

English: Bilingual (professional working proficiency)
French: Fluent
Spanish: Intermediate
