LinkedIn | Bilingual English/French | GitHub

Professional Summary

Software Engineer with strong **Python** backend practice (FastAPI/Flask-style services) and full-stack appetite (**React/TypeScript**, PostgreSQL). Delivered production APIs and data-driven features; experienced collaborating with product/data stakeholders. Motivated by **GovTech** and modernizing public administration. Eager to join **Manty** Engineering to ship decision/budget/RH products end-to-end with quality practices (reviews, tests, CI/CD) and thoughtful AI adoption.

Core Strengths

Python (Flask / FastAPI) · React / TypeScript · PostgreSQL · Docker & CI/CD · Code reviews & tests · Data visualization · Public-sector impact · Continuous learning

Experience

Gustave Roussy & CentraleSupélec MICS — Paris, France
Backend / Full-Stack leaning Engineer (CDD) — *Jan 2026 – Present*
- Production **Python** services (FastAPI) + PostgreSQL; validation, RBAC, monitoring; SQL optimization (+30%).
- Docker + GitHub Actions CI/CD; documentation and iterative delivery with research/product partners — SaaS-like ownership.

Dassault Systèmes – 3DEXPERIENCE R&D — Vélizy-Villacoublay, France
Software Engineer — *Apr 2025 – Oct 2025*
- Large-scale platform engineering; +35% performance; automated tests (85%); reviews and design docs.

INRIA Grenoble — Montbonnot-Saint-Martin, France
Research Intern — *May 2024 – Aug 2024*
- Python/C real-time data pipelines (+40%); validated with end users — product empathy for operational users.

LIG – Cloud Infrastructure — Grenoble, France
Intern — *Feb 2025 – Mar 2025*
- OpenStack/Grid'5000 experiments — comfort with Linux servers/VMs similar to Manty's infra context.

Personal Projects – GovTech Python/React

City Decision Dashboards | Python Flask, React/TS, PostgreSQL, Vite — GitHub
- Public-finance style dashboards: KPIs, filters, drill-downs for a mock collectivité — Manty Décision inspired.
- Flask API + React front; Dockerized; tests + CI; focus on clarity for non-technical city staff.

Budget Workflow Helper | Python, React, PostgreSQL — GitHub
- Simple budget preparation flow with role-based edits and audit trail; explores DX improvements and AI-assisted doc generation without sacrificing code ownership.

Technical Skills

Backend: Python (Flask/FastAPI), PostgreSQL, SQL tuning
Frontend: React, TypeScript, Vite ecosystem
Ops: Docker, CI/CD, Linux servers
Practices: code reviews, tests, pair-friendly workflow, GovTech product sense

Education

Grenoble INP - Ensimag — Grenoble, France
Engineering Degree in Computer Science & Software Engineering — *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé — Yaoundé, Cameroon
Master's Degree in Computer Engineering (Top 12%) — *2019 – 2023*

Languages

English: Bilingual (professional working proficiency)
French: Fluent
Spanish: Intermediate
