Ghislain THEUBO

Paris, France | +33 6 82 86 62 79 | bergerghislaintheubo@gmail.com
LinkedIn | Bilingual English/French | GitHub

Professional Summary

Data-oriented Full Stack / Analytics Engineer with strong **SQL**, **Python**, and modeling discipline from production health-data systems. Builds reliable pipelines, documents sources, and turns business questions into reusable models. Curious about **dbt**, modern ELT (Airbyte), self-BI, and **AI agents** on a certified semantic layer. Eager to own Ops & B2B data at **Respire** — from ingestion to dashboards to data products that change team decisions.

Core Strengths

SQL (advanced) · dbt (staging/intermediate/marts) · Python / GCP notions · Data quality & docs · Dashboards / self-BI · Semantic layer · AI agents on metrics · Business impact mindset

Experience

Gustave Roussy & CentraleSupélec MICS — Paris, France
Data / Backend Engineer (CDD) — *Jan 2026 – Present*
- Owned data lifecycles: validation, quality controls, access, monitoring; SQL optimization (+30%).
- Automated processing/reporting in Python; documented flows — foundation for analytics engineering rigor.

Dassault Systèmes – 3DEXPERIENCE R&D — Vélizy-Villacoublay, France
Software Engineer — *Apr 2025 – Oct 2025*
- Data modeling and performance (+35%) on large platform services; tests and documentation habits.

INRIA Grenoble — Montbonnot-Saint-Martin, France
Research Intern — *May 2024 – Aug 2024*
- Processed sensor streams reliably; translated operational needs into technical pipelines.

Personal Projects – dbt, Semantic Layer & Agents

Ops & B2B Commerce Marts | dbt, SQL, BigQuery/Postgres, Lightdash-style metrics — GitHub
- dbt project with staging → intermediate → marts for orders, stock, B2B accounts; tests + documentation.
- Defined a certified semantic layer (metrics/dimensions) and simple dashboards for Ops/Supply questions.

Metrics Q&A Agent | Python, LLM, certified metrics API — GitHub
- Natural-language agent answering only from certified metrics; detects doc drift and proposes model cleanups — Respire-aligned.

Airbyte + GCP Extract Sketch | Airbyte, Python Cloud Function notions — GitHub
- Connected sample sources, monitored freshness, documented lineage for agent/human consumption.

Technical Skills

Analytics Eng: SQL, dbt, testing, documentation, semantic metrics
Engineering: Python, Airbyte notions, GCP notions, CI
BI/AI: dashboards, self-BI enablement, LLM agents on certified data
Mindset: business ROI, rigor, Ops/B2B impact

Education

Grenoble INP - Ensimag — Grenoble, France
Engineering Degree in Computer Science & Software Engineering — *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé — Yaoundé, Cameroon
Master's Degree in Computer Engineering (Top 12%) — *2019 – 2023*

Languages

English: Bilingual (professional working proficiency)
French: Fluent
Spanish: Intermediate
