LinkedIn | Bilingual English/French | GitHub

Professional Summary

API-focused Software Engineer (Ensimag) with production **API design and delivery** at Gustave Roussy, a major module rewrite at **Dassault Systèmes** (Java/Spring, specs, TDD), and platform services at **Shift Technology** (high-performance APIs on Azure). Comfortable owning the loop **functional specs → data model → API contracts → implementation → debugging**. React for web surfaces; ready to ramp on Withings' internal PHP framework. Uses LLMs daily to accelerate docs, tests, and reviews — without skipping architectural rigor. Seeking CDI **API Engineer** at Withings (Issy-les-Moulineaux).

Core Strengths

API architecture & contracts · **Technical specifications** · Backend (Java/Spring, Python/FastAPI; PHP-ready) · **React** · SQL optimization · Production debugging · Code reviews · LLM-assisted productivity · Cross-functional communication (PM / Dev / Ops) · English

Experience

Shift Technology – Platform Software Engineering — Paris, France
Software Engineer (CDI – Platform / Backend) — *Sept 2026 – Nov 2026*

- Contributed to the **platform / foundations** squad building shared services used by product teams: design and implementation of **C# / .NET** components and **high-performance APIs** on **Microsoft Azure**.
- Worked with cloud data and messaging building blocks (**Azure Cosmos DB**, **Service Bus**), configuration/transversal services, and infrastructure-as-code awareness (**Terraform**) in a hybrid SaaS environment.
- Practiced production engineering habits: design discussions, code reviews, monitoring mindset, incremental delivery, and collaboration with platform and product engineers.

Gustave Roussy & CentraleSupélec MICS Lab — Paris / Saclay, France
Software Engineer (CDD – Backend / Data Platforms) — *Jan 2026 – Sept 2026*

- Software Engineer (CDD) in joint coordination between **Gustave Roussy (Oncostat / CESP)** and **CentraleSupélec MICS**: built and maintained production backends for research/clinical data workflows.
- Designed **REST APIs** (Python/FastAPI) with validation, RBAC, structured logging, and observability; PostgreSQL modeling with indexing and query tuning (**∼30%** faster critical reads).
- Containerized services with **Docker**; automated tests and delivery via **GitHub Actions**; wrote technical documentation for data flows and operational handoff.
- Collaborated daily with domain experts (research/medical) — translating ambiguous needs into reliable, auditable software.

Dassault Systèmes – 3DEXPERIENCE / 3DSwym R&D — Vélizy-Villacoublay, France
Software Engineer Intern (Full-Stack Module Rewrite) — *Mar 2025 – Sept 2025*

- Full-stack overhaul of the legacy **Survey module** for **3DSwym** (3DEXPERIENCE collaborative platform): analyze, design, develop, and deliver a modern replacement.
- Backend in **Java 17+ / Spring Boot** (MVC, Spring Data JPA) + **Hibernate**; applied **TDD** with JUnit; design patterns for modular maintainability.
- User-needs analysis with product "Champions", competitive benchmark, MoSCoW prioritization in Agile ceremonies; Git + CI/CD practices.
- Results: delivered core features of the new module with **∼35%** performance improvement and **∼85%** test coverage — robust, maintainable codebase for 3DSwym users.

INRIA Grenoble – Humanlab / Froll'N'Roll — Montbonnot-Saint-Martin, France
Research Intern – Real-Time Control Modules (Assistive Wheelchair) — *May 2024 – Aug 2024*

- Developed real-time control modules in **C/FreeRTOS** and Python for an electrically assisted manual wheelchair — direct user impact with continuous validation with the end user.
- Redesigned communication/data pipelines under latency constraints; improved responsiveness by **∼40%**; contributed to open/documented research codebases.
- Human-centered engineering: DIY hardware/software integration, iterative prototyping, and clear technical communication in a multidisciplinary SED team.

LIG – Laboratoire d'Informatique de Grenoble — Grenoble, France
Cloud Infrastructure Intern (VM Migration on OpenStack / Grid'5000) — *Feb 2025 – Mar 2025*

- Automated and studied **VM migration** experiments on OpenStack within Grid'5000; analyzed performance vs availability trade-offs for hosted applications.
- Wrote reproducible scripts and measurement notes under supervision of Alain Tchana — deepened virtualization and distributed cloud skills.

Selected Projects

Health Metrics API + Spec Pack | OpenAPI, Python/FastAPI, PostgreSQL, React GitHub

- Designed API contracts (OpenAPI), data model, and endpoints for a mock connected-health metrics service (weights, BP, sleep) — Withings-like ecosystem bridge.
- Wrote **technical specifications** from a PM-style brief; challenged edge cases (idempotency, pagination, auth scopes) before coding.
- React admin/debug UI; SQL tuning; error/performance logging hooks; LLM-assisted draft of docs + test cases, human-reviewed.

API Gateway & Partner Access Lab | Kong notions, JWT, rate limiting GitHub

- Prototype partner-facing API access with auth, rate limits, and request tracing — aligned with partner/product connectivity concerns.

PHP API Starter (ramp-up) | PHP, REST, SQL GitHub

- Small PHP REST service to demonstrate willingness and ability to adopt Withings' internal PHP stack quickly while keeping clean contracts and tests.

Technical Skills

APIs: contract design, endpoints, versioning, auth, OpenAPI/specs, debugging, SQL optimization
Backend: Java/Spring Boot, Python/FastAPI, **PHP (ramp-up)**, REST, PostgreSQL/MySQL
Frontend: React, TypeScript
Platform: Docker, CI/CD, Azure/.NET exposure (Shift), Kong notions
LLM: Copilot / ChatGPT / Claude for docs, tests, review — always with human validation
Soft: challenge PM specs, vulgarize for mixed audiences, collective delivery

Education & Certifications

Grenoble INP - Ensimag Grenoble, France
Engineering Degree – Information Systems / Software Engineering (Double Degree) *2023 – 2025*

École Nationale Supérieure Polytechnique de Yaoundé Yaoundé, Cameroon
Master's Degree in Computer Engineering – Top 12% of class *2019 – 2023*

Certifications: Programming Foundations – TDD (LinkedIn, 2025) · Primerli – Insurance Industry Foundations (2025)

Languages & Extra

English: bilingual / professional · **French:** fluent · **Spanish:** intermediate
Extra: academic tutoring (UGA DAEU maths; 4 years mentoring baccalaureate students in Cameroon) · tennis, football
